A Walking Miracle.

Mr. H. R. STEVENS.—Dear Sir,—Though a stranger I want you to inform me what VEGETINE has done for me.

Late Christmas Scrofula made its appearance in my steer—large swelling ulcers appearing on me as follows: One on each of my arms, one on my thigh, which extended to the seat, one on my head, both into the skull hole, one on my left leg, that became so bad, that two physicians came to anoint this limb, though upon consultation declined not to do so, as my whole body was a full of Scrofula, they deemed advisable to cut the sore, which was painful beyond description, and there was a quart of matter run from this one sore.

The physicians all gave me up to die, and said they could do no more for me. Both of my legs were drawn up to my seat, and it was thought if I did get up again I would be a cripple for life.

When in this condition I saw Mr. Stevens advertised, and commenced taking it in March, and followed on with it until I had used sixteen bottles, and this morning I going to plough, once, a well man. All my own persons say it is a miracle to see me round walking and working.

In conclusion I will add, when I was enduring such great suffering, from that dreadful disease, Scrofula, I prayed to the Lord above to take me out of this world, but as VEGETINE has restored me to health, and the blessing of life, I desire more than ever to live, that I may be of some service to my fellow man, and I know of no better way to add suffering humanity than to enclosure you this statement of my case, with an earnest hope that you will publish it, and it will afford me pleasure to reply to any communication which I may receive therewith.

WILLIAM PAYN.

THOMAS JEFFERSON.

The Great Reputation which VEGETINE has attained in all parts of the country as a Great and Good Medicine, and the large number of testimonials which are constantly being received from those who have been cured by its use, is conclusive proof of its great value. It is recommended by physicians and apothecaries as a Blood Purifier and Health Restorer, it has no equal.

VEGETINE is not prepared for a fancy drink, made from poor liquors, which deplete the system, and tend to destroy health instead of restoring it.

Are not the many testimonials given for the different complaints satisfactory to any reasonable person suffering from any disease mentioned above, that they can be cured? Read the different testimonials given, and you will know that it is the case of many of these persons may that their pain and suffering cannot be expressed, as in cases of Scrofula, whereas, apparently, the whole body was one mass of corruption, if VEGETINE will relieve pain, cleanse, purify and cure such diseases, restoring the patient to perfect health after trying different physicians, many remedies, suffering for years, it is not conclusively proved, if you are a sufferer, you can be cured? Why is this medicine performing such great works? It works in the blood, in the circulating fluid. It can truly be called the Great Blood Purifier. The great source of disease originates in the blood, and no medicine that does not act directly upon it, to purify and renovate, has any just claim upon public attention. Without it, the body becomes lifeless and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, the VEGETINE will renew the whole blood, carry off the putrid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body. The conviction is, in the public mind as well as in the medical profession, that the remedies supplied by the VEGETINE COMPANY are more safe, more successful in the cure of disease, than mineral medicines. VEGETINE is composed of roots, barks and herbs. It is pleasant to take, and is perfectly safe to give to an infant. Do you need it? Do not hesitate to try it. You will never regret it.

Feel Myself a New Man.

Mr. H. R. STEVENS—Dear Sir,—I am in receipt of your favor, and am conscious of the honor you have conferred upon me by thus recognizing my name in your valuable work. I have for many years been a subscriber to your valuable periodical, and am much indebted to you for the information I have received from your columns. I am also much indebted to you for the paper you have just written, which is a most valuable contribution to the medical literature of the country.

Respectfully yours,

The Best Evidence.

The following letter from Rev. E. S. Best, pas-
tor of E. Church, Natick, Mass., will be read with interest by many physicians. Also those suffering from the same disease as afflicted the son of the Rev. E. S. Best. No person can doubt this testimony, and there is no doubt about the

curative powers of VEGETINE.

Mr. H. R. Stevens—

Dear Sir,—We have good reason for regarding your VEGETINE a medicine of the greatest value. We are assured that it has been the means of saving our son's life. He is now seventeen years of age, for the last two years he has suffered from neuralgia of his leg, caused by serous ad-

fection, and was so far reduced that nearly all who saw him thought his recovery impossible. A council of able physicians could give us but the faintest hope of his ever rallying, two of the number declaring that he was beyond the reach of ordinary remedies, and even amputation could not save him, as he had lost vigor enough to endure the operation. Just then we commenced giving him VEGETINE, and from time to the present he has been continuously improving. He has lately resumed his studies, thrown away crutches and cane, and walks about cheerfully and strong.

Though there is still some discharge from the opening where his limb was hacked, we have the fullest confidence that in a little time he will be perfectly cured.

He has taken about three dozen bottles of VEGE-

TINE, but hardly uses but little, and he declares that he is too well to be taking medicine.

Respectfully yours,

E. S. Best

This is to certify that I have used your "Blood Preparation" in my family for sever-

al years, and think that, for Scrofulous or Gastro-

Enous Humors, or Rheumatic affections, it cannot be excelled. It has been at all times a con-

stant remedy and medicine, it is the best thing I have ever used, and I have used almost everything. I can cheer-

fully recommend it to any one in need of such a medicine.

Yours respectfully,

Diseases of the Kidneys, Bladder, &c., are always unpleasant, and at times they become the most distressing and dangerous diseases that can affect the human system. Most diseases of the Kidney arise from impurities in the blood, causing humors which set up fevers and pains, thereby causing a healthy action to all the organs of the body.

Report from a Practical Chemist and Apothecary.

Boston, Jan. 1, 1874.

Mr. Stevens—

This is to certify that I have sold at retail 14,450 (4,526 bottles of your VEGETINE) and could say in large part of my customers or users of this medicine, that it has given the best satisfaction of any remedy or complaint of which I have recommended that I ever sold. Scarcely a day passes without some of my customers writing to me to testify how much they are cured, and I am perfectly con-

fident of the success of your VEGETINE in this vi-

sion.

WOULD NOT BE WITHOUT

VEGETINE FOR TEN TIMES ITS COST!

The great benefit I have received from the use of VEGETINE induces me to give my testimony in its favor. I believe it to be of greater value for restoring the health, but a purgative of diseases peculiar to the spring and summer season. I would not be without it for ten times its cost.

SOUTH BERWICK, Me., Jan. 17, 1872.

Dear Sir—I have had Dyspepsia in its worst form for the last ten years, and have taken doses of dollars' worth of medicine without obtaining any relief. In September last I commenced using the VEGETINE, and since that time I have steadily improved. My food digests well; I have gained fifteen pounds of flesh. There are several others in this place taking VEGETINE and all have obtained relief.
